

Digitized Automation for a Changing World

Delta Human Machine Interface DOP-100 Series

www.deltaww.com

Advanced Human Machine Interface for

Delta's Human Machine Interface DOP-100 Series includes four categories for different applications: Basic, Standard, Advanced, and Handheld. The Basic, Standard, and Handheld HMI adopt the latest Cortex-A8 (800 MHz), while the 12"/15" Advanced HMI adopts the Dual Core Cortex-A7 1Ghz high-speed processor. The DOP-100 Series employs 16-bit or 24-bit color LCD screens with high brightness and contrast. In addition, the series is equipped with the HMI programming software DIAScreen and built-in Lua editor for easy programming as well as alarm / history log / user authority functions for highly efficient management.

With advanced communication capabilities and enhanced functions, the DOP-100 Series enhances machine efficiency to bring more value to our customers, and to achieve "Automation for a Changing World"!

Standard HMI

Features General and Ethernet Types for various applications

Advanced HMI

Features narrow frame design, supports various network communications, multilingual input and multimedia functions

Future Industry

Basic HMI

Simple operating structure for harsh environments

Handheld HMI

Customized for the teaching needs of various motion platforms such as robotic arms

Table of Contents

<u>Introduction</u>	2
<u>Robust Hardware</u>	16
<u>Programming Software – DIAScreen</u>	17
<u>Advanced Alarm</u>	22
<u>Data Management</u>	24
<u>User Authority Management</u>	26
<u>Network Functions</u>	27

Easy Model Selection

The DOP-100 Series offers diverse models for different applications. Users can easily select a suitable HMI based on size or function

S Type	▶ Serial Communication Port x2 (D-sub x1)	
B Type	▶ Serial Communication Port x2 (D-sub x1)	
D Type	▶ Serial Communication Port x2 (D-sub x1)	▶ Ethernet port x1 (RJ45 x1)
C Type	▶ Serial Communication Port x3 (D-sub x2)	
P Type	▶ Serial Communication Port x3 (D-sub x2)	▶ Ethernet Port x1 (RJ45 x1)
E Type	▶ Serial Communication Port x3 (D-sub x2)	▶ Ethernet Port x1 (RJ45 x1)
I Type	▶ Serial Communication Port x3 (D-sub x3)	▶ Ethernet Port x1 (RJ45 x1)
H Type	▶ Serial Communication Port x1 (D-sub x1) or Ethernet Port x1 (RJ45 x1)	
W Type	▶ Serial Communication Port x2~4 (D-sub x1~2) ▶ Narrow frame design , Multi-language	▶ Ethernet Port x1~2 (RJ45 x1~2)
M Type	▶ Serial Communication Port x4 (D-sub x2) ▶ Narrow frame design , Multi-language, Multi-media	▶ Ethernet Port x2 (RJ45 x2)

Type Definition

DOP-107 W V

Advanced HMI

At least 2 Serial Communication Ports & 1 Ethernet Port included

Handheld HMI

1 Serial Communication Port (RS-422 / RS-485) or 1 Ethernet Port

Standard HMI

3 Serial Communication Ports included

Basic HMI

2 Serial Communication Ports included

Advanced Narrow Frame

Advanced Multimedia

Handheld

Standard General

Standard Premium

Standard Ethernet (2COM)

Standard Ethernet (3COM)

Simple

Basic

Basic Ethernet

Advanced HMI

The Advanced HMI adopts a wide screen and narrow frame design. It supports Ethernet communication & multilingual inputs. The Multimedia Type DOP-112 / 115 offers multimedia functions to meet different applications.

Features

Narrow Frame
Enlarged visual display for a better user experience

LUA Language
Simple and easy structural programming language to meet various demands

Pressing Times >10,000,000
Effective pressing times validated by strict endurance tests

IP65 Rating
Protects the HMI from rain and dust

Multilingual Input
16 different languages input for easy operation

Diagnostics Function
Collects and troubleshoots issues remotely

Power Isolation
Protects the HMI from accidental surge interference

VNC Remote Monitoring
Remote control with mobile devices

QRcode Scanning
Generates QRcodes for mobile device identification

Supports GIF Graphic Elements
Easy setting to play vivid GIF elements

Embedded Linux System
Open system for flexible and stable program development

DIAScreen
New software DIAScreen offers more functions and a better interface

Operating Temperature 0°C ~ 50°C
Applicable in various industrial operating environments

CE / UL Certified
Compliant with CE and UL standards

Multimedia Functions
Captures images with an external camera or replays important recordings 

Ethernet Communication
Connects to a master device or PLC with high-speed Ethernet communication

Communication Isolation
Serial Communication Ports and Ethernet Ports with built-in isolation circuits enhance communication stability

OPC UA
Supports M2M communication and data transmission among machines from various manufacturers for diverse industries

FTP/eMail Supported
Simple data transmission and real-time status update

Supports PDF and TXT Reader
PDF and TXT files supported

Camera & Video Play Multimedia Functions

Analog Camera

Supports external camera via analog signals, suitable for capturing fast and short-distanced images

Applications: Textiles | Pharmaceutical | Rubber & Plastics

IP Camera

Supports IP Camera via Ethernet, suitable for capturing remote and wide-range images

Applications: Packaging | Logistics | Mining | Power Generation | Oil & Gas

VGA Input

Displays images from external devices such as machine vision systems, PCs or notebooks

Video Play

Views mpeg4 files captured by analog or IP camera from internal storage or USB disk / SD card

Event Trigger

Responds to preset event trigger conditions to capture images and archive as mpeg4 files

Multi-Language Input for Localization

▶ The Advanced HMI supports multilingual inputs for:

- Recipe Name (ENRCPG)
- Recipe Group Name (ENRCPNONAME)
- Recipe Content (Char)
- User Name

▶ Supports 16 languages: English, Traditional Chinese, Simplified Chinese, French, German, Russian, Japanese (Fullwidth or Halfwidth), Korean, Spanish, Portuguese, Hindi, Turkish, Arabic, Persian, Italian and Polish

Delta's HMI can implement M2M communication and data transmission for diverse industries by means of OPC UA. Communication among different manufacturers' machines is enabled through information modeling.

Standard HMI

The Standard HMI is equipped with Serial Communication Ports to meet most applications. It also offers Ethernet Types for fast and easy connection with other equipment.

Features

Embedded Linux System
Open system for flexible and stable program development

LUA Language
Simple and easy structural programming language to meet various demands

DIAScreen
New software DIAScreen offers more functions and a better interface

Pressing Times >10,000,000
Effective pressing Times validated by strict endurance tests

Operating Temperature 0°C ~ 50°C
Applicable in various industrial operation environments

IP65 Rating
Protects the HMI from rain and dust

CE / UL Certified
Compliant with CE and UL standards

Diagnostics Function
Collects and troubleshoots issues remotely

Ethernet Communication
Connects to master device or PLC with high-speed Ethernet communication

Power Isolation
Protects the HMI from accidental surge interference

Communication Isolation
Serial Communication Ports and an Ethernet Port with built-in isolation circuits enhance communication stability

VNC Remote Monitoring
Remote control with mobile devices

FTP/eMail Supported
Simple data transmission and real-time status update

Supports PDF and TXT Reader
PDF and TXT files supported

Supports GIF Graphic Elements
Easy setting to play vivid GIF elements

User-Friendly
Intuitive operation interfaces for users

Basic HMI

The Basic HMI is easy to install and offers basic functions for general industrial applications. With an IP65 rating, it is suitable for harsh environments.

Features

Embedded Linux System
Open system for flexible and stable program development

LUA Language
Simple and easy structural programming language to meet various demands

DIAScreen
New software DIAScreen offers more functions and a better interface

Pressing Times >10,000,000
Effective pressing times validated by strict endurance tests

Operating Temperature 0°C ~ 50°C
Applicable in various industrial operating environments

IP65 Rating
Protects the HMI from rain and dust

CE / UL Certified
Compliant with CE and UL standards

Diagnostics Function
Collects and troubleshoots issues remotely

Ethernet Communication
Connects to master device or PLC with high-speed Ethernet communication

D Type Only

FTP/eMail Supported
Simple data transmission and real-time status update

D Type Only

Communication Isolation
An Ethernet Port with built-in isolation circuits enhances communication stability

D Type Only

VNC Remote Monitoring
Remote control with mobile devices

D Type Only

Supports PDF and TXT Reader
PDF and TXT files supported

Supports GIF Graphic Elements
Easy setting to play vivid GIF elements

User-Friendly
Intuitive operation interfaces for users

Handheld HMI

The Handheld HMI adopts a lightweight handheld design and supports Serial Communication Port (RS-422 / RS-485) or Ethernet communication. Meet the teaching needs of various motion platforms such as robotic arms.

Features

Embedded Linux System

Open system for flexible and stable program development

LUA Language

Simple and easy structural programming language to meet various demands

DIAScreen

New software DIAScreen offers more complete functions and a better interface

Pressing Times >10,000,000

Effective pressing Times validated by strict endurance tests

Operating Temperature 0°C ~ 50°C

Applicable in various industrial operating environments

IP54 Rating

Protects the HMI from rain and dust

CE Certified

Compliant with CE standards

Diagnostics Function

Collects and troubleshoots issues remotely

Ethernet Communication

Connects to a master device or PLC with high-speed Ethernet communication

Power Isolation

Protects the HMI from accidental surge interference

Communication Isolation

Serial Communication Port / Ethernet Port with built-in isolation circuits enhance communication stability

FTP/eMail Supported

Simple data transmission and real-time status update

Supports PDF and TXT Reader

PDF and TXT files supported

QRcode Scanning

Generates QRcodes for mobile device identification

User-Friendly

Intuitive operation interfaces for users

Supports GIF Graphic Elements

Easy setting to play vivid GIF elements

Robust Hardware

Power Isolation

- ▶ The HMI with built-in power isolation circuits provides protection against accidental external spikes

Isolated Communication Interface

- ▶ The HMI with built-in Serial Communication Port and Ethernet isolation circuits to protect against noise that can occur from the grounding of various devices such as PLCs, servo drives, motor drives and others

PCB Coating

- ▶ The DOP-100 series has PCB coating for enhanced durability and to protect against humidity and dust for applications in a range of environments

Programming Software – DIAScreen

Abundant Elements

- ▶ Abundant built-in element graphics for vivid interface display for a variety of industrial applications

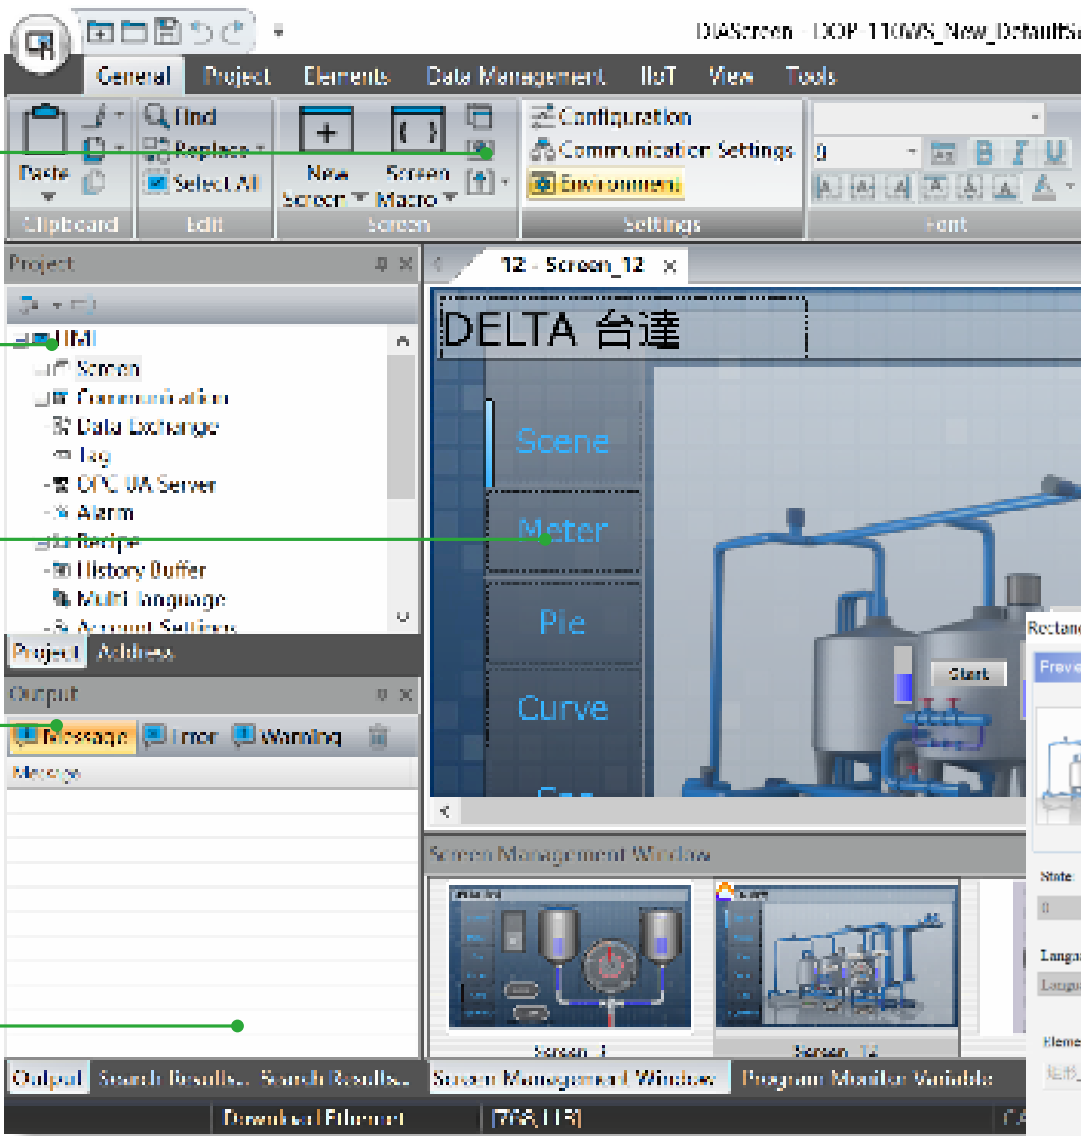

Smooth Animation

- ▶ New smooth animation technology for realistic dashboard display

Programming Software - DIAScreen

User-Friendly Programming Interface

The screenshot shows the DIAScreen software interface with several callout boxes pointing to specific features:

- Bookmark Management:** A green box pointing to the 'Bookmark' icon in the top toolbar.
- Bookmark menu allows users to switch pages easily:** A text box below the 'Bookmark Management' callout.
- Project Management Batch:** A green box pointing to the 'Project' menu in the top toolbar.
- Users can quickly switch items via the project branch feature:** A text box below the 'Project Management Batch' callout.
- Editing Area:** A green box pointing to the main workspace area where the screen is being edited.
- Provides real-time display of users' edits:** A text box below the 'Editing Area' callout.
- Output List:** A green box pointing to the 'Output' window at the bottom left.
- Automatically displays edit results of each screen. Users can review and troubleshoot by clicking screens:** A text box below the 'Output List' callout.
- Edit Preview:** A green box pointing to the 'Screen Management Window' at the bottom right.
- Users can quickly browse the overall project via edit preview:** A text box below the 'Edit Preview' callout.

Abundant Accessories

Customized keyboard

Field devices

Process paradigms

General Tool

Shortcut icons help enhance efficiency

Property

Provides easier property setup via group lists

Property Window

Standard accessory dialog box with built-in preview and quick-edit functions

Programming Software - DIAScreen

Editing Windows

Register View Window

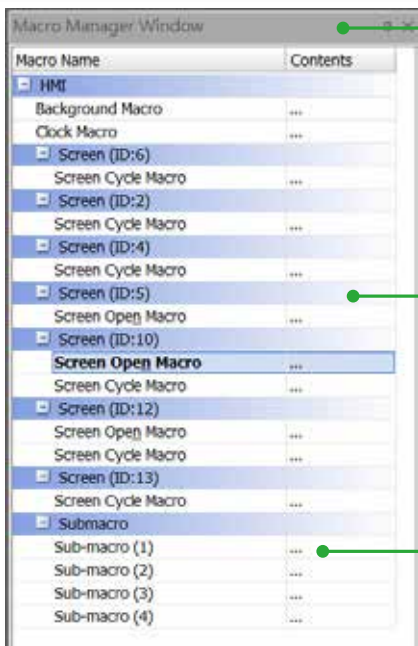

The color blocks of red and white allow users to view the memory register status

Red blocks indicate the used registers

White blocks indicate empty registers

Macro Management Window

Users can view all types of macros in the project

Select a macro via the list

Directly edit the macro after clicking

```

11
12 while true do
13
14   -- read from 020, 021
15   dx = mem.inter.Read(20)
16   dy = mem.inter.Read(21) / 10
17
18   -- get the path by cos formula
19   r = r + dy
20   x = x + dx
21   y = math.cos(r) * 100 + offsety
22
23   if (x < 0) then value = math.cos(radian) end
24   Parameters: radian: number, Radian
25   mem.inter: Returns: value: number
26   mem.inter: Example) cos(30 deg)
27   w = math.cos(math.rad(30))
28   mem.ir => ym.666020
29   mem.ir => 0, 0xFFEFFFFF
30
31   mem.inter.Write(2, 0xFFE00)
32
33 end

```

Lua Tool Bar

-  Program debug
-  Stops program debug
-  Program break point

Online Coding Tips

Lua editor displays tip windows of the codes when users move the mouse to the selected codes

Watch variable

Name	Value	Global / Local	Type	Format
dx	3	Global	Number	DEC
dy	0.1	Global	Number	DEC
r	0.1	Global	Number	DEC
x	3	Global	Number	DEC
y	0	Global	Number	DEC
name	nil	Local		DEC

Parameter Monitoring Window

Allows users to monitor parameter variation during program development

Items

- Basic syntax
 - if then else elseif end
 - for var=1,3 do _ end
 - while
 - table, array
 - + * / % ^
 - function, call function
 - logic: xor and or not lshift rshift
- Internal memory - \$
 - mem.inter.Read
 - mem.inter.ReadDW
 - mem.inter.ReadFloat
 - mem.inter.ReadBit
 - mem.inter.Write

[Detail]

```

if (100 > 20) then
  -- do something
end

if (100 > 20) then
  -- do something
else
  -- do something
end

[boolean expression]
a = 100
if (a == 100) then equal = true end
if (a ~= 100) then not_equal = true end
if (a <= 100) then less_than_or_equal = true end
if (a >= 100) then greater_than_or_equal = true end
end

```

Programming Assistance Window

Provides online assistance as follows:

- Lua code templates
- Program usage and properties
- Program samples

Advanced Alarm

Strengthened alarm functions allow users to easily manage machine operations and quickly troubleshoot problems

- ▶ Alarm messages contain current register data for issue analysis

Detail			Properties
No.	Message Content	Category	
1*	Temp. too High , PV is %d1	1	
2*	Temp. too Low , PV is %d1	1	
3*	PV is %d1 , ALM Mail	2	
4		0	
5		0	

Message
Temp. too Low , PV is 12
Temp. too High , PV is 91
Temp. too Low , PV is 15
Temp. too Low , PV is 23

Alarm Sorting
 Alarm sorting via a "Sorting" function based on alarm attributes for quick information inquiries

Supports Compound Address Monitoring
 Monitors Word and Bit documents at the same time

Detail			Properties			
No.	Message Content	Category	Type	Address	Trigger Condition	Monitor Address
1*	Temp. too High , PV is %d1	1	Word	\$15	\$15 > 70	\$15
2*	Temp. too Low , PV is %d1	1	Word	\$15	\$15 < 30	\$15
3*	PV is %d1 , ALM Mail	2	Bit	\$198.4	On	\$15
4		0	Bit	None	On	None

Versatile Alarm Triggering Conditions
 Triggering conditions can be setup via a built-in function, no external editing programs required

Alarm Notification

Automatically sends out alarm notification emails to logged-in recipients when alarms occur and supports the Secure Sockets Layer (SSL) protocol to ensure safe data transmission

- Indicates the alarm trigger and recovery time, and provides alarm acknowledge time / date (Ack) to confirm and monitor troubleshooting progress

Message	Trigger	Ack	Recovery
Temp. too Low • PV is 12	15:07:12 02/03/2017		15:07:15 02/03/2017
Temp. too High • PV is 91	15:07:15 02/03/2017	15:07:56 02/03/2017	15:07:22 02/03/2017
Temp. too Low • PV is 15	15:07:22 02/03/2017		15:07:25 02/03/2017
Temp. too Low • PV is 23	15:07:28 02/03/2017	15:07:58 02/03/2017	15:07:34 02/03/2017

Alarm Filtering

Advanced address control filtering allows users to find specified alarm messages according to user needs

Action	
Address control filtering allows users to find specified alarms	
No.	Action
0	Preset state, shows all triggered alarms
1	Hide alarms with "Recover Time" and "Ack Time"
2	Hide alarms with "Recover Time"
3	Hide alarms with "Recover Time" or "Ack Time"
4	Hide alarms with "Ack Time"

Alarm Ordering

Displays alarms in the order of Trigger Time / Ack Time / Recover Time

Data Management

Historical Data

- ▶ Generates historical reports with user-defined file names and timestamps through Bit Control

The 'Save As Mul' dialog box contains the following settings:

- File Date:** None, %m, %d
- File Time:** %H, %M, None
- File Name:** DOP
- Saving trigger:** \$175.0

Historical Data Review

- ▶ Allows historical data review on backup in USB disk or SD cards

Zoom In / Out Display

- ▶ Zoom in / out function for convenient data viewing

Recipes

- ▶ Supports 2D and 3D recipe grouping, for more flexibility in building recipe database
- ▶ Various recipe formats, including text format (Unicode) which can also be used as formula notes

	D100	D101	D102	D103	D104	D105	D106	
	D100	D101	D102	D103	D104	D105	D106	50.7
Cake Recipe 1	Strawberry	300	0	0	221.56	533.1	150.7	63.9
Cake Recipe 2	Chocolate	0	300	0	387.98	490.8	163.9	79.8
Cake Recipe 3	Vanilla	0	0	300	120.14	505.3	279.8	
	Strawberry	Chocolate	Vanilla		Sugar	Flour	Milk	
	Char	Unsigned DEC			Floating			

Recipe Group 2 (includes rows 1-4)

Recipe Group 1 (includes rows 5-6)

- ▶ Recipes can be saved in CSV files for convenient editing on PCs
- ▶ Allows recipe update or backup through USB disks, SD cards or FTP

PDF for Data Review

- ▶ Users can save manuals or instruction PDF files in USB disks or SD cards for reference anytime

User Authority Management

Account and Authorization Management

- ▶ Supports 8 levels of authority and allows 20 accounts (account name/password) for each level to enhance operation safety
- ▶ Different function and operation access for each authority level to enhance operation safety
- ▶ Automatically logs out inactive users to ensure data security

Operation Log

- ▶ Operation log for different user accounts to trace/analyze possible causes of malfunctions
- ▶ Provides comprehensive information for managers to analyze the operating habits of different users and enhance efficiency

Time	Date	User	Level	Screen Description	Action	Address	Pre Value	Change

13:03:12	09/29/2020	11	1	Screen_Maintained_0	Set Val	\$10.0	0	1
13:03:16	09/29/2020	11	1	Screen_Numeric Entry	Set Val	\$100	33	123

Network Functions

Only With Ethernet

FTP Server

- ▶ Built-in FTP server to update recipes or PDF files, and backup historical data, operation log and alarms

VNC Server

- ▶ Built-in VNC server allows remote monitoring and operating of the DOP-100 Series via VNC Client APP (Windows, iOS, Android)
- ▶ Lock function: blocks remote operation during on-site operation to avoid unsynchronized commands. The VNC server allows remote monitoring but not remote operation when the lock function is on

Web Monitoring

- ▶ Allows direct monitoring of register data via web page, and requires no additional software installation

	COM3 ²	N/A	RS-422 / RS-485 ²	
RTC	Built-in			
Cooling	Natural air circulation			
Certification	CE/UL (please use shielding Ethernet cables and magnetic rings with filters of 300 ohm / 100 MHz)			
Waterproof	IP65 / NEMA4 / UL Type 4X (indoor use only)			
Operation Voltage ³	DC +24V (-15% ~ 15%) ² , supplied by Class 2 or SELV circuit (isolated from MAINS by double insulation)			
Voltage Endurance	AC500V for 1 minute (between charging DC24 terminal and FG terminals)			
Power Consumption ⁵	Max. 5.8W ³	Max. 8.4W ³	Max. 11W ³	
Backup Battery	3V lithium battery CR2032 × 1			
Backup Battery Life	Depends on the temperature used and the conditions of usage, usually about 3 years or more at 25° C			
Operating Temperature	0° C ~ 50° C			
Storage Temperature	-20° C ~ 60° C			
Ambient Humidity	10% ~ 90% RH (0 ~ 40° C), 10% ~ 55% RH (41 ~ 50° C), Pollution Degree 2			
Vibration	IEC 61131-2 compliant 5 Hz ~ 8.3Hz = Continuous: 3.5mm, 8.3Hz ~ 150Hz = Continuous: 1g			
Shock	IEC 60068-2-27 compliant 15g peak for 11ms duration, X, Y, Z, directions for 6 times			
Dimensions (W) x (H) x (D) mm	137 x 103 x 37.1	196 x 136 x 39	270 x 180.9 x 47.25	
Mounting Dimensions (W) x (H) mm	118.8 x 92.8	186.8 x 126.8	255 x 170.5	
Weight	280g	560g	1,100g	

1) The half-life of a backlight is defined as the original luminance being reduced by 50% when the maximum driving current is supplied to an HMI.

2) Built-in power isolation

3) An isolated power supply is recommended.

4) Some models are in the process of application for UL and KCC certification. For more information, please consult our distributors.

5) The value of the power consumption indicates the electrical power consumed by the HMI with no peripheral devices connected.

6) The content of this catalogue may be revised without prior notice. Please consult our distributors or download the most updated version at <http://www.deltaww.com>

Voltage Endurance	AC500V for 1 minute (between charging DC24 terminal and FG terminals)				
Power Consumption ⁵	Max. 16.08 W	Max. 21.12 W	Max. 16.08 W	Max. 21.12 W	
Backup Battery	3V lithium battery CR2032 × 1				
Backup Battery Life	Depends on the temperature used and the conditions of usage, usually about 3 years or more at 25°C				
Operation Temperature	0°C ~ 50°C				
Storage Temperature	-20°C ~ 60°C				
Ambient Humidity	10% ~ 90% RH (0 ~ 40°C), 10% ~ 55% RH (41 ~ 50°C), Pollution Degree 2				
Vibration	IEC 61131-2 compliant 5 Hz ~ 8.3 Hz = Continuous: 3.5 mm, 8.3 Hz ~ 150 Hz = Continuous: 1g				
Shock	IEC 60068-2-27 compliant 15g peak for 11ms duration, X, Y, Z, directions for 6 times				
Dimensions (W) x (H) x (D) mm	317.4 x 246.4 x 52.7	387.7 x 295.7 x 63.5	317.4 x 246.4 x 52.7	387.7 x 295.7 x 63.5	
Mounting Dimensions (W) x (H) mm	302.7 x 228.7	372.4 x 283.7	302.7 x 228.7	372.4 x 283.7	
Weight	2,110 g	3,200 g	2,110 g	3,200 g	

1) The half-life of a backlight is defined as the original luminance being reduced by 50% when the maximum driving current is supplied to an HMI.

4) Built-in power isolation

5) An isolated power supply is recommended.

4) Some models are in the process of application for UL and KCC certification. For more information, please consult our distributors.

7) The value of the power consumption indicates the electrical power consumed by the HMI with no peripheral devices connected.

8) The content of this catalogue may be revised without prior notice. Please consult our distributors or download the most updated version at <http://www.deltaww.com>

Handheld HMI

Model		Handheld HMI			
		DOP-107HS4xx	DOP-107HE4xx	DOP-107HE4xxZM	DOP-107HE47xZD
LCD Module	Display	7" TFT LCD			
	Color	16-bit			
	Resolution (Pixels)	800 x 480			
	Back Light	LED Back Light			
	Back Light Brightness (cd/m ²)	400	450	450	
	Back Light Life (Hour) ¹	20,000			
	Display Area	154.08 x 85.92 mm			
MCU	ARM Cortex-A8 (800MHz)				
Flash ROM (Bytes)	256 MB				
RAM (Bytes)	256 MB				
Touch Panel	Four-wire resistor, over > 10,000,000 pressing times				
Buzzer	Multi-Tone Frequency (2K ~ 4KHz) / 80 dB				
Ethernet Interface	N/A	1 Port ² , 10/100 Mbps auto-sensing			
USB	1 USB Slave Ver 2.0				
SD	SD/SDHC				
Serial COM Port/Communication	RS-422 /RS-485	N/A			
Emergency Stopswitch	B contact x 2		A contact x 1/B contact x 1		
	Rated voltage: < DC 30V; Maximum rated current: 1A; Minimum allowable load: DC 5V / 1 mA Complies with IEC60947-5-1, EN60947-5-1, IEC60947-5-5, EN60947-5-5, UL 508, CSA C22.2 No.14, GB 14085.5				
3-Position Operation Switch	A contact x 1				
	Rated voltage: < DC 30V; Maximum rated current: 700 mA; Minimum allowable load: DC 3V / 5 mA Complies with EN/IEC60947-5-8, IEC60947-5-1, EN60947-5-1, JIS C8201-5-1, UL508, CSA C22.2 NO.14 Applicable standards for use with ISO12100-1 & -2/EN12100-1 & -2, IEC60204-1/EN60204-1, ISO11161/ prEN11161, ISO10218/EN775, ANSI/RIA R15.06, ANSI B11.19				
MPG	DOP-107HE42x, DOP-107HS42x, DOP-107HE42xZM do not support MPG Rated voltage: < DC 24V Resolution: 50(P/R) Output waveform: square wave; Output phase: A, B Phase difference between A and B: 90° ± 45° Maximum frequency response: 200 Hz				
Auxiliary Keyboard	15 Function Keys		21 Function Keys		
Cable Length	5 m (when end of model name = 5) 10 m (when end of model name = A)				
Calendar	Built-in				
Cooling Method	Natural cooling				
Certification	CE (please use shielding Ethernet cables and magnetic rings with filters of 300 ohm / 100 MHz)				
Protection Rating	IP54				
Operating Voltage ³	DC +24V (-15% ~ +15%) ² , supplied by SELV circuits (isolated from MAINS by double insulation)				
Voltage Endurance	AC500V for one minute (between DC24 and FG terminals)				
Power Consumption ⁵	4.896 W ³				
Backup Battery	3V lithium battery CR2450 × 1				
Backup Battery Life	About 5 years or more at 25 °C (77°F)(subject to operation temperature and condition)				
Operation Temperature	0 °C ~ 40 °C				
Storage Temperature	-10 °C ~ 60 °C				
Operating Environment	10% ~ 90% RH (0 ~ 40 °C), 10% ~ 55% RH (41 ~ 50 °C), Pollution Degree 2				
Vibration	IEC 61131-2 compliant 5Hz ~ 8.3Hz = Continuous: 3.5 mm, 8.3Hz ~ 150Hz = Continuous: 1g				
Shock	IEC 60068-2-27 compliant 15g peak for 11ms duration, X, Y, Z, directions for 6 times				
Dimensions (W) x (H) x (D) mm	257.4 x 170.3 x 71.8 (emergency stop switch and hook included)				
Weight	750 g (cable excluded)				

1) The half-life of a backlight is defined as the original luminance being reduced by 50% when the maximum driving current is supplied to an HMI.6

2) Built-in power isolation

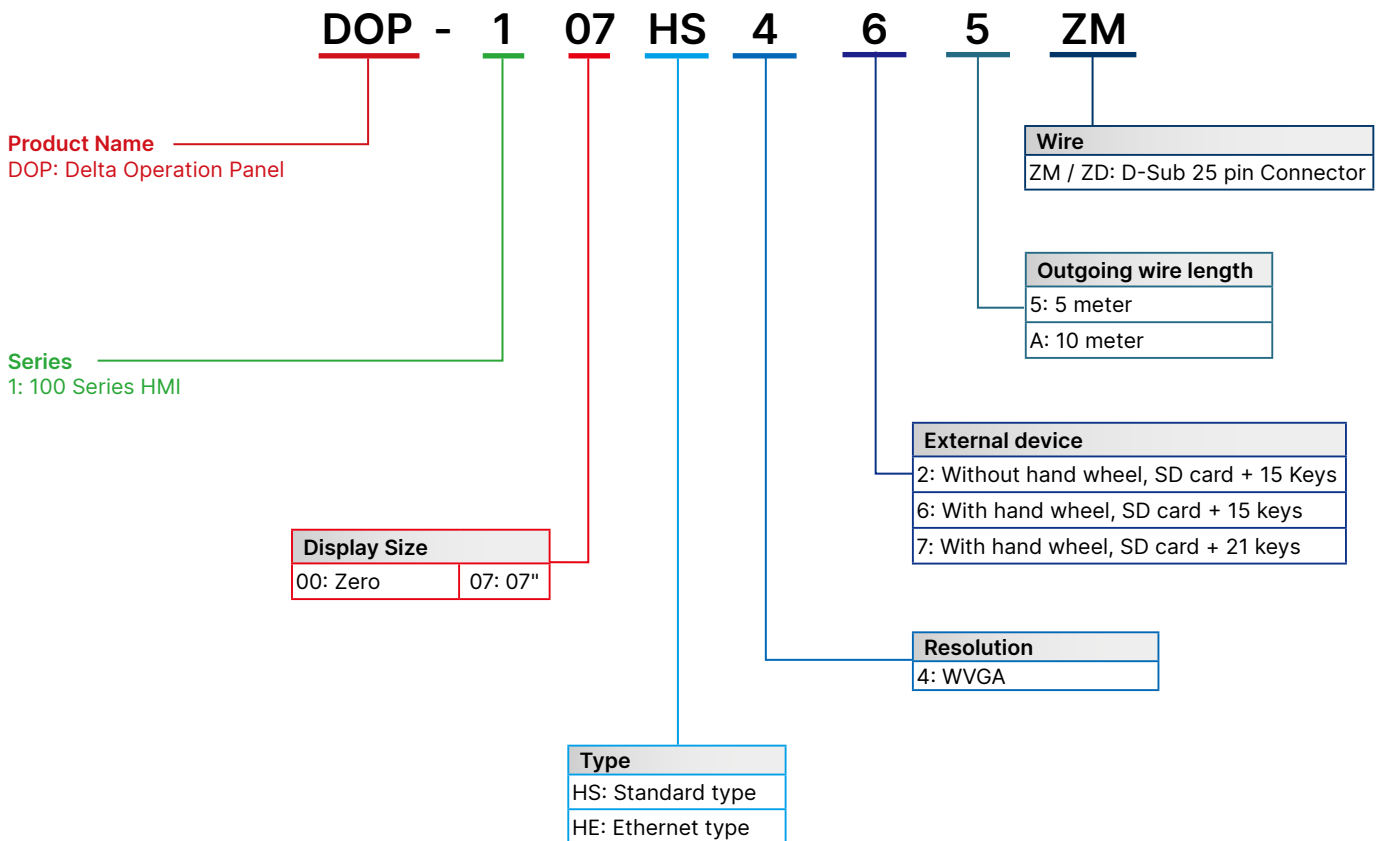

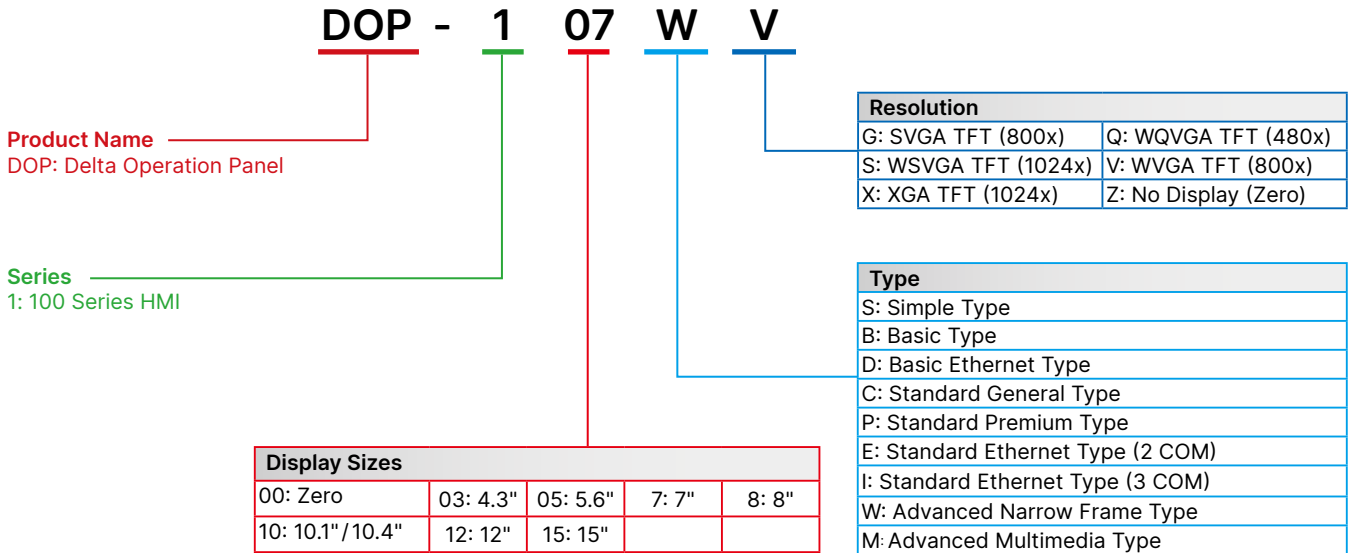

3) An isolated power supply is recommended.

4) Some models are in the process of application for UL and KCC certification. For more information, please consult our distributors.

5) The value of the power consumption indicates the electrical power consumed by the HMI with no peripheral devices connected.
